FACULTY WELLNESS

Below are some wellness services offered by the University for all faculty and staff:

- Faculty members are welcome to join the GME Gym located in the Towers Building. The cost is \$100 for membership – period September 1st – August 31st. Those interested in joining must contact the GME Office (Suite 2039 of the Hospital-2nd Floor) to complete the form. Once the form is complete, we ask the potential gym member to make a payment at the Cashier's Office and present the receipt to GME for access.
- Howard University benefit to its employees: visit <https://www.beneplace.com/howard>. The site provides a number of discounts for a variety of items and services to HU and HUH Employees.
- The AMA GME Competency Education Program is a series of online educational modules designed to complement teachings in patient settings and didactic curricula in residency and fellowship programs. It helps residents and their institutions to meet core competency requirements. Courses include addressing burnout and professionalism and are not being offered to faculty as well as residents and fellows. Faculty will need to contact Ms. Alonda Thompson (alothompson@howard.edu) or Mrs. Mary Jennings-Butler (mjennings@huhosp.org) to request access to the AMA Courses.

RESEARCH CENTERS MINORITY INSTITUTIONS (RCMI)

NIH Medical Research Scholars Program

The National Institutes of Health (NIH) **Medical Research Scholars Program (MRSP)** is a comprehensive, year-long research enrichment program designed to attract the most creative, research-oriented medical, dental, and veterinary students to the NIH intramural campus in Bethesda, Maryland. Student scholars engage in a closely mentored research project that matches their research interests and career goals.

The application cycle for the 2019–2020 program is from October 1, 2018 to January 11, 2019. The National Institute on Minority Health and Health Disparities is proud to participate with other NIH Institutes and Centers in the MRSP. Our goal is to introduce the MRSP to students from diverse racial and ethnic backgrounds and encourage them to consider biomedical research as a career.

Learn from Dr. Anna Maria Napoles, Ph.D., MPH by watching this video [about the NIH Medical Research Scholars Program](#).
