

☆ Research Conferences & Abstract Deadlines (Updated August 2026)

Dear Students, I hope this email finds you well. I am reaching out to inform you about upcoming research meetings that offer excellent opportunities to present your work, gain experience, and network with medical students and professionals from various institutions. Please note the dates for registration and abstract submission. Also, for competitive specialties, the abstract deadlines are months in advance, and I want to put them on your radar. So you prepare in advance and can take advantage of these opportunities. I strongly encourage each of you to collaborate and ensure that your poster and presentation include at least 2–3 classmates, if not more (ideally 4–5). You are colleagues, not competitors, and your collective success benefits everyone.
