FACULTY RETREAT SHOWCASE

If you have an exciting announcement to share with your colleagues please email Swati Jain Goel, MD at swati.goel@howard.edu so that we can highlight in our newsletter!

Highlights from the 9th Annual Faculty Retreat

9th Annual Faculty Retreat: Identifying and supporting the At-risk student
HUCOM 9th annual faculty retreat on May 31st from 8am-5 pm at the AAMC learning center was a great event attended by 104 clinical and basic science faculty and staff. The plenary speaker Dr. Saundra Yancy McGuire, Director Emerita for Academic Success and retired Assistant Vice Chancellor and Professor of Chemistry at Louisiana State University, presented an engaging plenary on “Metacognition: The Key to Increasing the Success of At-Risk Students.” This session gave insight into improving the academic abilities of students utilizing three core concepts: active learning, metacognition and Bloom’s taxonomy. Additional sessions included “State of the College of Medicine” overview, current strategies in place to support at risk students and presentations by the Harvard-Macy scholars on educational initiatives that were competitively accepted as projects in the Harvard- Macy Program for Educators in Health Professions™. The retreat ended with a panel discussion from educational leaders at the preclinical, clerkship and residency levels at HUCOM to brainstorm further strategies to enhance students’ potential. We will have links to many of these presentations up at our website by the end of June: https://hsl-howard.libguides.com/friendly.php?s=FacultyDevelophucm

PLENARY SPEAKER
DR. SAUNDRA Y. MCGUIRE

SR. ASSOC. DEAN, ASSOC. PROF.
& VICE CHAIR SURGERY

Harvard Macy Program for Educators in Health Professions Residential Program offered annually in Boston, MA
Please note that the Office of Faculty Development is excited to continue to offer this professional development program for the coming academic year. As part of a Kaiser Permanente Faculty development award, we are able to send 2 faculty members annually to the Harvard Macy Institute residential program for educators in health professions. This is solely a residential program and our funding will cover the program, housing and transportation costs as well as meals. As part of the formal application to the program the applicant must submit a project proposal. Some examples of projects are: designing and teaching a new or revised course/curriculum or residency rotation; creating a faculty development program; introducing or enhancing professional rewards for healthcare educators; integrating technological advances with curriculum design. Of note we are asking Chairs and/or other senior leadership to identify faculty in your departments who will be change agents for the institution and encourage them to submit their names to the Office of Faculty Development as soon as possible to be eligible for this training and funding. The faculty member if successfully accepted into the program, will need to be relieved of all other duties during the residential portion of the program (16 days in total) and may require some additional protected time to develop their projects. The goal of the faculty development office, in conjunction with the medical school leadership, is to develop as cadre of Harvard Macy trained “Master educators” who will move forward our educational mission.

OVERVIEW
The goal of the Harvard Macy Institute Program for Educators in Health Professions is to enhance the professional development of physicians, basic scientists, and other healthcare professionals as educators. The program is built around 6 major themes: the science of learning, teaching skills and strategies, inquiry and evidence in education, curriculum design, leadership development, and innovations in education. The program consists of two sessions in residence at Harvard: a 10-day winter session and a 6-day spring session. Learning formats include large group presentations; interactive exercises; case method teaching; problem-based learning; observations; reflective use of journals; and discussions in large and small groups. A variety of faculty-facilitated small group formats are used to support learning from observations, to draw together scholars with common interests, and to further the development of each scholar’s back-home project for educational change.

Next Course: January 13-23 and May 13-17, 2019
PROFESSIONAL DEVELOPMENT OPPORTUNITIES – AAMC

Early Career Women Faculty Leadership Development Seminar
When: July 21-24, 2018

GEORGETOWN-HOWARD UNIVERSITIES CENTER FOR CLINICAL AND TRANSLATIONAL SCIENCE (GHUCCTS)

GHUCCTS NEWS!
The Georgetown-Howard Universities Center for Clinical and Translational Science (GHUCCTS) is excited to be part of the newly established NIH Trial Innovation Network and we would like our institutional investigators to take advantage of this unique opportunity. There are two ways that you can participate: (1) you may propose a multi-site clinical trial as a GHUCCTS investigator to leverage the resources of the nation-wide Trial Innovation Network, or, (2) you can be considered to be a site investigator for a multi-site clinical trial sponsored by the Trial Innovation Network.

Please visit www.trialinnovationnetwork.org to learn more about this new program and how it can be beneficial to your program.

REQUEST FOR APPLICATIONS

PREDOCTORAL STUDENT & POSTDOCTORAL FELLOW TRAINING PROGRAM IN TRANSLATIONAL BIOMEDICAL SCIENCE
Georgetown-Howard Universities Center for Clinical and Translational Science (GHUCCTS) is now accepting pre-applications for its pre-doctoral student and postdoctoral fellow training program in Translational Biomedical Science (TBS Program). Final application is DUE August 1, 2018. The TBS Program is supported by the NIH TL1 award mechanism and accordingly, follows the same eligibility requirements, stipend structure and NIH restrictions of Ruth L. Kirschstein National Research Service Awards (NRSA) including F30, F31, F32 and T32 mechanisms.

For further details regarding goals of the TL1, see TL1 Expectations on website.
Questions? Please Contact TBS Training Program Coordinator: Emily Bujold, eab159@georgetown.edu

TBS Executive Committee: Kathryn Sandberg, PhD sandberg@georgetown.edu | Dexter L. Lee, PhD dlee@howard.edu | Jason G. Umans, MD, PhD jason.umans@gmail.com

*PLEASE FEEL FREE TO FORWARD THIS ANNOUNCEMENT TO ANYONE WHO MIGHT BE INTERESTED
CENTER FOR HEMOGLOBIN RESEARCH MINORITIES (CHaRM)

Speakers:  Senator Tim Scott (R-SC)  
          Cory Booker (D-NJ)  
          Congressman Danny Davis (D-IL)  
          Sophie Lanzkron, MD, MHS – Associate Professor of Medicine (Johns Hopkins School of Medicine)

Topic:  5TH Annual World Sickle Cell Awareness Day Symposium

When:  June 19, 2018
Time:  1:00p.m. – 4:00p.m.
Where:  Howard University Hospital, Towers Auditorium

THIS IS A FREE EVENT!
